At Parkersburg the rivers are rising very rapidly and both are forecast over. Among the boats that are tied up there are the Hudson, Adele, Nina Padon, Hilton and Martin, and it is thought that all will be more or less damaged when the gorges let go. At Collettsburg Sandy river is rising. Guyan and Twelve Poles booms broke yesterday morning. Logs are running out, but very few are being caught on account of the heavy ice. Rivermen expect a big river.

## LYMAN J. GAGE'S VIEWS.

## WHAT MCKINLEY'S SECRETARY OF TREASURY WILL DO.

## Greenbacks Should Be Permanently Retired, and Treasury Notes Redeemed—Present System a Make-shift.

## New York World.

The World submitted in writing to Mr. Lyman J. Gage a number of questions concerning the most vital issues with which he will deal as Secretary of the Treasury.

Mr. Gage, with great candor and courtesy, makes his position quite clear on all of them as follows:

"Our whole monetary system is the result of makeshift legislation and scientific compromises. It is time that reform began."

"In my opinion the greenbacks should be permanently retired. The silver purchased under the Sherman Act should be gradually sold and the Treasury notes redeemed and canceled. Some well-guarded system of bank note circulation, broader and more elastic than the present National Bank Act provides, should be inaugurated."

"Such bank notes should be redeemable at a central place and be redeemable in gold only."

"Silver certificates, which form nearly one-fifth of the circulating medium of the United States, are dangerous. By their use a volume of inferior money has found an abnormal use. They are the most perplexing feature in the much-involved problem of our financial system."

"There is no reason why the Government should act as warehouseman for either gold or silver. Such a function is outside its proper limit of action."

"But we are faced by a condition. The enormous amount of \$500,000,000 of silver, represented by \$388,000,000 in silver certificates, added to the \$150,000,000 purchased by the Government under the Sherman Act, constitutes a standing menace to every business interest."

"To sum up, the defects of our present currency system are:

"First—Confusing heterogeneity which needs simplification.

"Second—The greenback controversy the principle of paper money, viz.: That every note injected into the commercial system should represent an existing commercial value."

"Third—The Treasury note is a standing evidence of a foolish operation—the creation of a debt for the purchase on a falling market of a commodity for which the purchaser has no use. It lies open to the just charge of being both idiotic and immoral."

"Fourth—The National bank note nearly conforms to the true principle of paper money, but the unreasonable requirements for security paralyze its efficiency and operate to destroy its elasticity."

"Fifth—The silver certificate encourages the use of silver to a larger extent than is consistent with the safe preservation of that metal on a parity with gold."

"Would a National commission help to promote reform?"

"There is reason to hope that it would be of great service in that direction. Such a commission if rightly elected would throw a flood of light upon these involved questions. The information it might gather would be of immense value to all our people and would guide us to wise legislation."

"Emotion and sentiment are not safe guides in matters of science. A clear apprehension of true principles will lead to correct action."

"Reaction will be slow, but it is coming, and it will be of long duration."

CHURCH-GOERS DON'T PAY TOLL.

Turpentine Owners Had Better Be a Little Careful and Avoid Trouble.

Some of the Turpentine Managers in the back precincts refuse to permit Church-goers to pass their gates without paying toll.

The attention of these gentlemen is called to a new law upon the subject, approved March 17th, 1896, as follows:

"Section 4—The Managers of any turpentine, gravel or plank road shall permit Ministers of the Gospel to travel on the road without paying toll when on ministerial duty. He got a boldness of it, first doing his duty and his continued use cured him. For sale by J. James Wood, Drugist."

The anti-cigarette Bill has brought out the women as lobbyists at Indianapolis.

Mr. Ward L. Smith of Fredericktown, Mo., was afflicted with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America, but he got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a boldness of it, first doing his duty and his continued use cured him. For sale by J. James Wood, Drugist."
